

MASONRY

EDUCATIONAL OPPORTUNITIES

The Southeast Concrete Masonry Association (SCMA) represents the masonry industry across North Carolina, South Carolina, Tennessee, Georgia, and Virginia. The SCMA is a masonry educational resource for architects, specifiers, engineers, general contractors, and owners to ensure that a continuous masonry learning environment is promoted by using masonry wall systems effectively, efficiently, and most importantly safely.

The SCMA and its members are committed to building a stronger partnership with the professional community within our five states. The SCMA maintains a speaker bureau on a below topics which encompasses more than 50 AIA approved courses today.
